

# CULTS

Lesson 2 w/answers

The Church of Latter Day Saints (Mormons)

We continue our study of the cults this week with The Church of Jesus Christ Of Latter-Day Saints (LDS) - the Mormons. In our last study we commented on some of the main points that we will find with most cults and how much of that was evident in the Jehovah's Witnesses. We saw how the ideas, inspirations, and voluminous writings of two men created a false religion that looks almost true to Christianity. And, as we pointed out in the last lesson, how special revelations, re-written bibles, or augmenting other material, will often carry significantly more authority than the God's Holy Word. We also noted that works play a major role in the Jehovah Witness faith and the sense that one can work their way up different levels and that only a minority privileged few are truly blessed.

Again, in this lesson we'll see that same model and more, as we study the church founded by Joseph Smith on April 6, 1830. I suspect that as well known as the Mormons are, and as many stories as you may have heard about them, that we might believe we actually understand them and have a solid understanding of their doctrine. But, we would all be mistaken unless we've either been Mormon, or have actually studied the Book of Mormon and the church's doctrine. Trust me, what many of you will learn this week will surprise you; I have no doubt of that.

To make that point, below is a list of true/false questions that I've written for a previous study – if you have access to the Book of Mormon, or some internet tools, you will find that the answers to the following list of questions will really open your eyes to what the Mormons actually believe, both about the world today and the world to come.

So get your research tools handy, and answer true or false to the following questions. You may want to consider a study help from Rose Publishing, entitled "Christianity and Mormonism Comparison Chart". If you answer false, jot down why you believe it is. I really do think the answers will surprise you.

23. The LDS believe that aliens mixed with angels at the Tower of Babel and created the American Indian. Moroni is a descendant of one of these Indians.

24. The LDS believe that Jesus Christ is the Son of the Living God and that all who will come unto him and obey the laws and ordinances of his gospel may be saved.

  - a. ANSWER: False. While they do fully support their own, even to the point of covering all their expenses and feeding the hurting family, they keep track of every penny expended and all of it must be repaid to the church, either through payments, or work, or a combination of the two. Nothing is free.

I apologize for such a lengthy list of questions, not normally my approach, but I'm hoping through this method that you will quickly see how different and radical the Mormon faith is from true Christianity and the challenges we will all face as we seek to witness to them.

I encourage you to remain faithful in this study and to commit to loving, seeking and witnessing to our lost brothers, sisters, neighbors, friends and co-workers, who have followed after such radical false teaching, believing a lie for the truth.

May God fill us with a discerning spirit as we continue our study – next week: the Christian Science faith.

In Christ,
